Call him, if you need him
Call him, he'll be there
You can call him, if you want him
Call him, he will care

You can talk to him
You can walk with him
He's so close to you
Everywhere

In the morning when you wake up
Through day and through night
When you're happy or sad
When you're up or down
He's all around

Call him, if you need him
Call him, he'll be there
You can call him, if you want him
Call him, he will care

Yeah, he lives in you
And he gives to you
He's so good to you
All the way

He's a friend when you suffer
He's got plenty supply
He gives power and peace
Keeps your soul high above
He's precious love

In the morning when you wake up
Through day and through night
When you're up or down
Oh, he's all around
