

Draw Me Up

Draw me up - draw me up
When I'm weak and tired
Send your wings and let me fly
High to the rock

Draw me up - draw me up
When my soul runs dry
Send your wings and let me fly
High to the rock

I'm looking for a resting place
I'm longing for your sweet embrace
Rough is the path to the goal
I need your light in my soul

Draw me up - draw me up
When I'm weak and tired
Send your wings and let me fly
High to the rock

Sometimes the darkness is so deep
Sometimes the mountain way is so steep
How long seems a day
I need your light on my way
