

Hungry Girl

I feel so cold and lonely
In the middle of the night
I phone you up to hold me
And to treat me right

Got dreams beyond description
And you know what I need
You jump in your car
And step on the gas
And gimme my night feed

'Cause I'm a hungry girl
I'm a hungry girl

I've got a special hunger
For sweet stuff in between
You said "Wait for the main dish
That will taste like cream"

I take three times a breakfast
Lunch and dinner, too
But when it comes to the night meal
Oh baby, I need you

'Cause I'm a hungry girl
I'm a hungry girl

When I'm lonely and I'm cold
I get nervous and as bold
As a hungry girl can be

Yeah, that's me!
