It's like driving in a car
It's like driving in a car
On that crazy road called life
Mmh, let's drive fast and far

It's like flying in a plane
It's like flying in a plane
In that crazy sky called time
Ooh, let's fly high again

Give me a car, a plane, whatever you've got
I'll take it
I wanna go up and down and up again
I'll make it
Give me a broom I can ride on
As long as it's moving on, it's me

It's like sailing in a boat
It's like sailing in a boat
On that tumbling sea, you and me
We can swim or we can float

Give me a car, a plane, a boat
I'll take it
I wanna go up and down and up again
I'll sure make it
Give me a broom I can ride on
As long as it keeps moving on

Give me a broom I can ride on
As long as it keeps moving on
Give me everything you've got
It's all right with me
It's all right with me
It's like driving, uuh
